

KISHAN JASANI

FULLSTACK WEB ENGINEER

<https://kishanjasani.in>

PROFILE

I am an experienced web developer with a strong foundation in WordPress, React, and clean coding practices. I specialize in building projects ranging from blogs to complex multi-region websites, with expertise in Gutenberg blocks, Full Site Editing, custom themes, and plugins. My development approach follows TDD, SOLID principles, and best practices to ensure scalable, maintainable, and high-performance solutions.

I thrive in agile environments, collaborating closely with teams to deliver high-quality results within deadlines and budgets.

Beyond WordPress, I have experience working with React, Laravel, and GraphQL, with a keen interest in AI-driven development.

EDUCATION

J.P. Dawar Institute Of Information Science & Technology MSC(IT)

Jun 2013 - Jun 2018

SOCIAL LINKS

WORK EXPERIENCE

Freelancing

May 2024 - Present

Rise modern wellness - Developed risemodernwellness.com for a client using Elementor, created 5 custom widgets to meet unique business needs. One of the key widgets was an appointment booking system, fully integrated with Zenoti's third-party API to handle real-time booking services seamlessly.

Senior WordPress Developer - BuddyBoss (Remote) April 2021 - Nov 2024

Agency Team

- **Talkbox.mom** - Migrated app from Appboss to BuddyBoss App. Updated all the custom work done by BuddyBoss previously to latest code BuddyBoss App.
- **The Home Mag** - Created Custom Rest API to support 2FA authentication for the BuddyBoss App and added many other custom APIs to fulfill the customer needs. - <https://thmhub.com/>

Product Team

- **BuddyBoss Platform** - Fixed more than 50 bugs in the BuddyBoss Platform and helped to improve the performance of Plugin.
- **BuddyBoss Theme** - Helped on migrating from BB Theme 1.0 to 2.0 major release.
- **BuddyBoss App** - Addressed numerous API issues, enhancing flexibility and reducing response which resulted in notably improved performance.

WordPress Developer - IdeaBox (Remote)

Aug 2019 - April 2021

- Developed and maintained the Coupon Box plugin, enhancing e-commerce functionalities with customizable discount features.
- Created a suite of Elementor Widgets, improving user experience and design flexibility for WordPress websites.

Web Engineer - rtCamp (Pune)

Jan 2019 - July 2019

Backend

- **rtMedia.io** - Migrated site from WordPress classic editor to Gutenberg, designed the site's structure, built a theme and created a store with WooCommerce to sell rtMedia Plugins. The site is now working with Gutenberg - <https://rtmedia.io/>

Frontend

- **Azizi Development** - Developed the <https://home.azizidevelopments.com/> site using Next.js, implementing a new design with pixel-perfect precision to match Figma specifications

Personal Project

Hotel Booking (Next.js) - Developed a full-stack hotel booking platform with Next.js for the frontend and React for the backend UI. Integrated Supabase for database management and backend functionality, leveraging its real-time capabilities.

Tour (CSS) - Built a fully responsive tour website using modern CSS techniques like Flexbox and Grid, with smooth animations to enhance interactivity. Designed a mobile-first layout to ensure optimal usability across all devices.
